Kodiak's CEO to be Guest Speaker at the PDA European Pharmaceutical Cold Chain Management Conference in Berlin, Germany

Houston, TX September 5, 2006 – Kodiak Thermal Technologies, Inc. announced today that it's President and CEO, Donald J. Pagel has been selected to speak at the PDA European Pharmaceutical Cold Chain Management Conference in Berlin, Germany, October 5th – 6th, 2006.

The PDA European Pharmaceutical Cold Chain Management Conference (www.pda.org/coldchain/) is a two-day comprehensive conference that will focus its attention on the PDA's Technical Report No. 39 – *Cold Chain Guidance for Medicinal Products: Maintaining the Quality of Temperature-Sensitive Medicinal Products Through the Transportation Environment (Item No. 01039)*. This conference will also serve as a medium that will demonstrate how the PDA's Technical Report No. 39 provides a blueprint that can aid in the development, validation and qualification processes required for the handling, storage, transportation and distribution with pre-determined parameters of quality assurance.

Don Pagel's topic of discussion will be "New Technologies in Cold Chain Packaging". His presentation will address what cold chain transportation packaging methods are currently available and what may be coming on the horizon to meet the demands of the industry. Discussions will be focused on the increased need for refrigerated transport (2° – 8° C), the increasing challenges of using dry ice, new phase change materials available, insulation technology alternatives and how these can affect domestic and international shipment.

Donald Pagel is a member of the Institute of Packaging Professionals (IOPP), the Parenteral Drug Association (PDA), and the Turnaround Management Association (TMA). He is President and Chief Executive Officer of Kodiak Thermal Technologies, Inc. which develops and produces innovative cold chain packaging technology and products for the global health sciences, relief and industrial markets. Don's background in distribution and logistics over 25 years led him to Kodiak as a leading-edge solution provider for the cold chain industry. Don holds a BS in Business Administration as well as certifications for project management and turnaround management.

Kodiak Thermal Technologies, Inc. develops patented reusable cold chain shipping and storage containers for the transportation of temperature-critical products in the medical and industrial chemical industries. For further information, contact Jannie Lewis at 713.686.1553 ext. 10.
