### **Kodiak Elects William J. Schoeffield to Board of Directors**

HOUSTON, April 24, 2007. Donald Pagel, President and CEO of Kodiak Thermal Technologies, Inc., announced today that William J. Schoeffield has been elected to the Kodiak Board of Directors.

Mr. Schoeffield is currently the President of AccuFleet International, Inc., a rapid growth, Houston-based airline maintenance company with over 425 employees in 11 major US cities. He has an extensive background in logistics primarily with Federal Express where he spent 20 years ending up as Vice President of Operations, Eastern Region.

Mr. Schoeffield holds both a bachelors and a masters degree from Canisius College in Buffalo, New York.

Mr. Pagel stated, "Bill is a wonderful addition to our Board. His background and understanding with the logistics industry will benefit Kodiak's multi-phase business development as we create a fleet of containers to meet the needs of more and more customers."

Kodiak Thermal Technologies, Inc. develops patented reusable cold chain shipping and storage containers for the transportation of temperature-critical products in the medical and industrial chemical industries. For further information, contact John Howe at 713.686.1553 ext. 40.
